

# FLP VOCAL PRESETS INSTALL INSTRUCTIONS

1. Unzip the “FLP Vocal Preset” Folder once downloaded to computer. (Right Click > “Extract All...”)
2. Drag and Drop the “Vocal Preset .fst” to any mixer insert available.
3. *Optional:* Double Click “.FLP” for FL Studio Template.

## IMPORTANT NOTE:

- Please be sure that FL Studio is up to date (12.5+)
- Install any/all VST provided (if any), before dragging and dropping .fst. Please be sure to install as x64 [64 bit].
